R

Invite

Backlog

attach the speaker and code the audio files

Oct 30

R

build the entire circuit on a breadboard

Oct 30 1

R

code the entire arduino, test and make sure it works

Oct 30 1

R

create the PCB files in Altium

Oct 31 1

test and verify the GERBER files (everyone check)

Nov 1

R

have the final design for the enclosure design

Oct 30

fabricate the enclosure

Nov 1

New

make the enclosure design prototype
(assignment 16)

  Oct 27  1

RB

prototype the circuit

  Oct 27  1

R

write the initial code for the Arduino

  Oct 27  1

R

In-Progress

create the trello

  Oct 27  1

Completed

update the data sheets and GitHub

  Oct 25
